The Norton County Appraisers Office will be conducting field inspections on Commercial properties, starting in the next few weeks. We are not appraising your property, but we will be verifying data on file and noting any changes. Staff will be measuring and taking pictures of your buildings to update our files. We do understand that you are conducting business and we will be respectful of your time and try to do our best not to interfere with workflow. K.S.A. 79-1476, states, every parcel of real property shall be actually viewed and inspected by the county or district appraiser once every six years.
